

The first steps

Before you have all of the powerfull tools of Swarmalb at your grasp you will have to create an account.

To do that navigate to the home page at <https://api-client.swarmlab.io:8088>

You should have been greeted by our login screen!

[login] | *{imagesdir}/registration/login.png*

To register click on the 'login with sso' option and accept the terms.

[terms] | *{imagesdir}/registration/terms.png*

Now you should be redirected to the login screen and you should be able to use the 'register' option at the bottom to make a new account!

[login main] | *{imagesdir}/registration/login_main.png*

Now fill in the required details

[register details] | *{imagesdir}/registration/register_details.png*

and follow the remaining instructions to activate your account.

Now that your account is ready, lets get to know Swarmlabs main page.
