Swarmlab quick-start guide!

Welcome to the vast world of Swarmlab!

Swarmlab is a powerful collaboration tool that connects tutors and students in a unique all-in-one environment that gets work done fast and easily.

In other words Swarmlab is the way to make your learning fun while at the same time getting to your goals faster!

But let's get you started...

Note: These instructions are general targeted at both students and tutors.

If you wish to skip to the specific instructions for tutors (lab creation, student invitation etc) click here.

WARNING	"General info WILL NOT be repeated so if you have basic questions regarding registration or labroom usage please read on from here.
